The Future of Ventilation

FRONT ELEVATION

SECTIONAL ELEVATION

Austral Monsoon AMA200 Acoustic Louvre is a purpose-engineered, sound-reducing louvre system designed to deliver **controlled airflow, reliable weather protection, and effective noise attenuation** across industrial, commercial, and building-services environments.

Characteristics

- Excellent noise reduction performance
- Supplied in module form allowing large openings to be infilled
- Frame Depth: 206mm
- Free Open Area: 25%

Applications

- Engineered to reduce noise across multiple frequency bands, ensuring effective sound control while maintaining airflow, including:
 - Plant room ventilation
 - Relief air from factories and workshops
 - Ventilation to acoustic equipment enclosures
 - Power generation equipment
 - Outdoor air ventilation systems etc.

Customisation Options

- Material
 - Aluminium/ Zinalume steel/ Colorbond steel/ Stainless steel
- Finishing Options:
 - Powder Coated
 - Natural Anodised
 - Other special finishes available upon request
- Internal mesh options: Mesh material options:
 - Bird Mesh
 - Insect Mesh
 - Vermin Mesh
 - Security Screens
 - Fibreglass
 - Galvanised Steel
 - Stainless Steel

Performance

- Engineer Certified AS/NZS1191: 2002; AS/NZS 4740:2000
