

AME60S

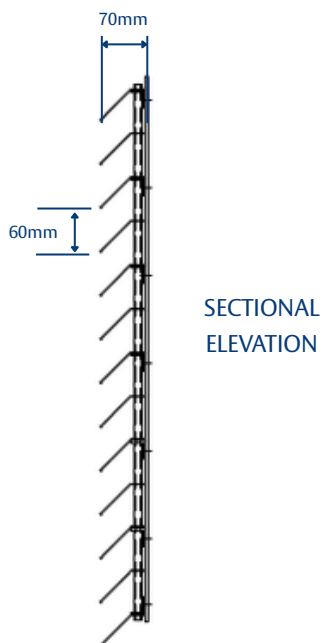

Single Stage Fixed Louvre

**AUSTRAL
MONSOON**
ASSA ABLOY

The Future of Ventilation

FRONT ELEVATION

Austral Monsoon AME60S Slimline Louvre is a slimline aluminium system designed to function as both a fixed ventilation louvre and an effective external sun shading solution. Featuring 45° extruded blades, it **reduces solar heat gain while maintaining airflow, outward vision, and a clean horizontal aesthetic**, making it ideal for windows, façades, and light-duty screening or security applications.

Characteristics

- Single Stage fixed louvre system & Sun shading system
- 45 degree angular extruded aluminium blades
- Depth: 70mm
- Blade Pitch: 60mm
- Free Open Area: 70%

Applications

- Ideal for low-risk security or barrier applications and projects requiring combined fixed ventilation and external sun shading, including:
 - Office windows for heat and glare control
 - Apartment façades for passive shading
 - Schools for shaded, ventilated walkways
 - Car parks needing sun screening with visibility
 - Commercial façades with architectural shading

Finishing Options

- Powder Coated
 - Natural Anodised
- Other special finishes available upon request

Performance

- Engineer Certified AS/NZS 1170; AS 2047
